DETAILED ACTION

Claim Objections

1. Claims 16-18 are objected to because of the following informalities:

As claim 16, lines 10, a recitation (1) should be changed to (a).

As claim 16, lines 11, a recitation (2) should be changed to (b).

As claims 17-18, line 1, a recitation (3) should be changed to (a).

Appropriate correction is required.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 16-20 are rejected under 35 U.S.C. 101 because a single claim which claims both an apparatus and the method, is directed to non-statutory subject matter. The claim is directed into both a "process" and a "machine," and overlaps two different statutory classes.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 16-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2616

The recited "A method...the integrated circuit" is vague and indefinite because the claimed invention is directed into at least one of digital logic circuit comprising an n-level ... the integrated circuit and a method for pipelining multiplexer loops comprising the steps of selecting ... implementing the pipelined multiplexer loop as set forth a single claim which claims both the apparatus and the method steps of using the apparatus is indefinite. In Ex parte Lyell, 17 USPQ2d 1548 (Bd. Pat. App. & Inter. 1990), a claim directed to a method for pipelining multiplexer loop and the detail of a digital logic circuit was held to be ambiguous.

Allowable Subject Matter

6. Claims 1-15 allowed.
